CLES is Testing site for District technology program.

- Student response has been unbelievable. Kids are prototyping things they see in the school, creating and then testing them. Book holders for the library, pen holders etc.
- Reaching some students that are at risk and giving them a purpose.
- Request funds to purchase a new 3D printer and ancillaries that go with it
- CLES specific rather than one that is rotated thru the district.
- A link will be provided to a student demo
- Expected cost is ~\$4,000 plus taxes.
- Requires filament but Shawn has indicated that this will come out of the schools budget
- Shawn will look into whether any grants are available...
